

## A Voice for Reason

# Vote Mack Van Allen

## It's Time

- To require our government to spend within its means
- To establish a fair and reasonable tax structure
- To pursue policies which promote upward mobility for the working and middle classes
- To give American manufacturers a chance to compete fairly in the global economy
- To reduce the fiscal burden now weighing on our children's future
- To reduce the potential destabilizing effects of increasing income inequality
- To bring a willingness to compromise to the legislative process

## It's Past Time

See "About Me" on my Facebook page for why I am running.
