Lisa,

It was a pleasure to get the chance to meet with you this past week. Your work of engaging the community into sustainable behavior and creating a unique space is a special part of the Dayton community.

As I mentioned when we met, the use of the land that Garden Station currently is on is part of the request for proposals for a mixed use development. This should not be a huge surprise as when the city leased the space to Garden Station for \$1 per year it was clear that this land would be used as a future development site.

Garden Station is a fantastic asset to the city and I believe has to do with the spirit of community. I commit to helping finding a new location for Garden Station and raising funds to help the move transpire. I will also advocate my fellow Commissioners to have the City of Dayton be helpful in this endeavor.

Please let me know if you have any questions. Thank you for your commitment to our city.

Sincerely,
